Assembly instructions ARBOTRADE Tree Shelter

1. Shape into a circle

Hold in the middle. Push the tabs from the outside into the designated holes to bring the tree shelter into the desired shape.

Tip: Start with the middle tabs – press in the top and bottom tabs last.

2. Attach cable ties loosely

Guide the ARBOTRADE cable ties through the designated holes and pull them tight loosely.

3. Attach tree shelter

Attach the tree shelter to the support stake and pull the cable ties tight.

Tip: Whether the surface is rough or smooth has no impact on functionality; it can face either inside or outside.
